

FOR IMMEDIATE RELEASE

Axel Plastics Research Laboratories Introduces A New Easy To Reference Brochure That Offers A Sampling of Mold Release Products For Composites

The new Axel Composites brochure breaks into convenient categories of composites manufacturing or fiber reinforced plastics (FRP) open molding, cast polymers, polyester/vinyl ester, phenolics, epoxy and availability of various product packaging.

The brochure design, a user-friendly format that indicates by sections the cure, the product, the typical application and important comments on the use of other specific Axel products.

According to Ms. Nancy Teufel, Senior Marketing Technical Support "Customers have requested easy to use guides, that let you locate what you need quickly. This brochure layout is in a horizontal template to allow quick access to relevant information and suggestions for usage – at a glance. And, at the same time, we've addressed the composite industry customer requirements -- to provide more user-specific information. "Our overall aim is to help the composite maker receive enough basic information to contact Axel's technical support team for information specifics on a particular application." She concluded, "This brochure helps us in reaching that goal."

The front cover of the brochure features high tech, high profile photos of advanced composite technology including, an F-22 aircraft ready to take off, a field of wind turbines, a close up of a satellite dish, the nose of a bullet train, a racing kayak and a sports car hugging a curve in the road.

All of Axel's products are better formulated from raw materials, which comply with the chemical substance inventory list of TOSCA, DSL, MITI, EINECS, Australia and Korea.

Axel manufactures hundreds of process-specific external release agent and internal lubricants for thermosets, thermoplastics and elastomers. With a network of 32 stocking distributors and technical support in 25 countries around the globe, the company encourages requests for evaluation samples by visiting the Axel web site at: <http://www.axelplastics.com>.
